

SANTINO BONDIONI

Junior Web Developer | React | JavaScript | HTML | CSS

Santa Fe, Argentina | santibon12345@gmail.com | LinkedIn | Portfolio | Remote / Full-time

ABOUT

20-year-old Junior Web Developer based in Argentina, with hands-on experience building responsive, interactive web applications using React, JavaScript, HTML, and CSS. I'm disciplined, calm under pressure, and pick up new tools and frameworks quickly. I work well in teams, communicate proactively, and take real ownership of what I ship. I'm at an early stage in my career and I'm looking for exactly the kind of environment Joinrs offers — structured mentorship, real responsibilities, and room to grow fast.

TECH STACK

Frontend: React, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS

Backend: Java, Node.js, Express, REST APIs, Spring Boot

Databases: PostgreSQL, MySQL, Prisma ORM

DevOps: Docker, Git, GitHub, Linux

Practices: Clean Architecture, SOLID, MVC, responsive & mobile-first design, debugging

EXPERIENCE

Full Stack Developer | Independent projects | 2024 - Present

Designed and built complete web applications end-to-end, from UI to backend, with a strong focus on responsive design, component reusability, and clean code.

- Built responsive, pixel-accurate interfaces with React and Next.js using Tailwind CSS
- Developed and integrated dynamic features with JavaScript — form handling, state management, API calls
- Tested and debugged frontend code for cross-browser compatibility and mobile responsiveness
- Implemented reusable component libraries with clear separation of concerns
- Connected frontend to REST APIs with typed contracts using TypeScript

PROJECTS

Administrative Management Platform

Stack: React | Next.js | Tailwind CSS | Node.js | Express | PostgreSQL | Docker

- Designed and built a responsive, role-aware UI with React and Next.js from scratch
- Integrated with a secure backend API — authentication, permissions, audit logging — and tested across devices

Digital Records & Audit System

Stack: Node.js | PostgreSQL | Prisma | TypeScript

- Built backend with traceability-first design — every action tracked, queryable, and auditable
- Structured for clean frontend integration: typed APIs, consistent responses, and documented endpoints

EDUCATION

Software Development Technician Degree

Instituto de Estudios Superiores (IES) | Santa Fe, Argentina | 2024 - Present | In progress

English coursework included throughout — basic to intermediate level.

Primary & Secondary School

Urdinarrain, Entre Ríos, Argentina | 2012 - 2023 | Completed

English coursework included throughout — basic to intermediate level.

ADDITIONAL

Languages: Spanish (native) | English (B2 — basic)

Availability: Full-time | Remote | Available immediately

Setup: Reliable home office with stable internet — ready for full-time remote from day one

Work style: Calm, disciplined, collaborative — mentorship-oriented and eager to grow
