SANTINO BONDIONI

Frontend / Full Stack Developer

React • Next.js • TypeScript • Node.js

Santa Fe, Argentina | santibon12345@gmail.com | [LinkedIn](#) | [Portfolio](#) | Remote - Full-time | Immediate Availability

PROFESSIONAL SUMMARY

Frontend-focused Full Stack Developer with hands-on experience building scalable web applications using React, Next.js, and TypeScript. Strong foundation in REST API integration, database-driven systems, and clean architecture principles. Experienced in designing user-centered interfaces with UX/UI awareness, ensuring usability, responsiveness, and performance optimization. Comfortable working in remote environments and delivering end-to-end features with ownership and attention to detail.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express, Java, Spring Boot, REST APIs

Databases: PostgreSQL, MySQL, Prisma ORM

DevOps & Tools: Docker, Git, GitHub, Linux

Architecture & Practices: Clean Architecture, SOLID principles, MVC, RESTful design, responsive & mobile-first development, API integration, debugging, UX/UI fundamentals

EXPERIENCE

Full Stack Developer

Independent Projects | 2024 – Present

- Developed full-stack applications using React, Next.js, Node.js, and PostgreSQL.
- Built reusable component-based frontend architectures using TypeScript.
- Integrated REST APIs with structured and typed contracts.
- Designed responsive and mobile-first interfaces following UX best practices.
- Structured backend services with Express and Prisma ORM.
- Applied authentication and role-based authorization patterns.
- Containerized applications using Docker for consistent environments.
- Improved code maintainability by applying SOLID principles and separation of concerns.

KEY PROJECTS

Administrative Management Platform

Stack: React, Next.js, TypeScript, Node.js, PostgreSQL, Docker

- Designed a role-based access control system with authentication and permissions.
- Implemented audit logging and secure API communication.
- Developed reusable UI components improving development scalability.
- Ensured cross-browser compatibility and responsive behavior.

Digital Records & Audit System

Stack: Node.js, PostgreSQL, Prisma, TypeScript

- Built traceability-focused backend architecture.
- Implemented structured logging and auditable data flows.
- Designed consistent REST API responses for frontend integration.

EDUCATION

Software Development Technician (In Progress)
Instituto de Estudios Superiores (IES) – Santa Fe, Argentina | 2024 – Present
